

Mininn Drum

The screenshot shows the Mininn Drum software interface with the following sections:

- Header:** Mininn Drum logo and AudioBlast dropdown menu.
- GLOBAL:** Volume, Tune, and Vel. Sens. knobs.
- TUNING:** Seven knobs for individual drum parts: BD, SNR, HH, CLP, TOM, CNG, CB, TAM, RS, CAB, CRH, RID, CUS.
- MIXER:** A mixer rack with 14 faders for: BD, Snr, HH, Clp, T L, T H, C L, C H, CB, Tmb, RS, Cab, Crh, Rid, Cus. It includes L and R channel indicators.
- PERFORMANCE:** A 2x8 grid of 16 pads for: SNARE, HH O, CLAP, TOM H, CONGA H, CABASA, RIDE, COWBELL, BASS, HH C, RIMSHOT, TOM L, CONGA L, TAMB, CRASH, CUSTOM.
- Navigation:** ROM 1, ROM 2, ROM 3 buttons and a menu icon.

Error! Use the Home tab to apply Titre 1;gg to the text that you want to appear here.

1.Main features

Welcome to Mininn Drum

Mininn Drum is an adaptation of the 3 Linn Drum versions.

We created three different sound ROMs with a selection of different sounds to get a global approach of the 3 version of the famous drum machine.

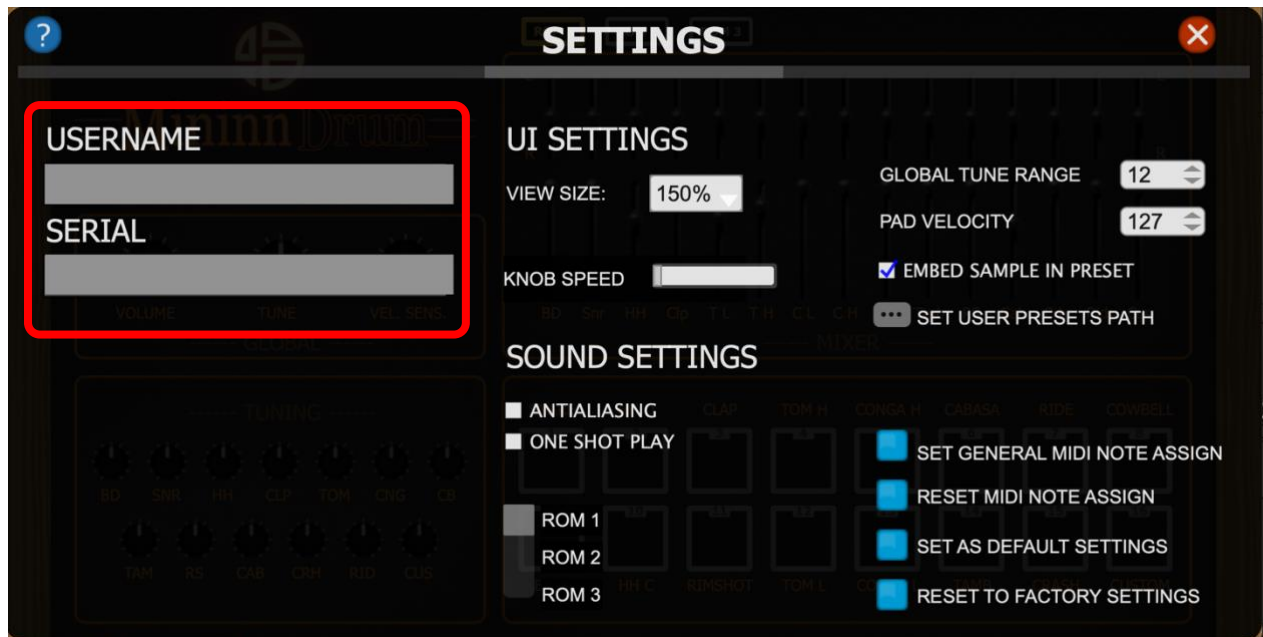

The ROM 1 is a selection closer to the LM-1, the ROM 2 closer to the 9000 Version, and the ROM 3 is a custom adaptation of the 80s drum sounds.

We also add a custom pad with the possibility to embed an additional drum or bass or any sample in your preset.

You can modify each sound separately, change the tune, the volume and the panoramic.

Error! Use the Home tab to apply Titre 1;gg to the text that you want to appear here.

2. Activate the Mininn Drum

The first time you launch the Mininn Drum in your DAW the settings view of the Mininn Drum appears.

Enter your user name (ex : user@audioblast.me) and the serial you received by e-mail then press Enter and exit the setting view by clicking on the red cross on the top right of the Interface.

Until the VST is unlocked you will have no sound!

Once unlocked, the **Mininn Drum** is automatically ready to use!

enjoy!

Error! Use the Home tab to apply Titre 1;gg to the text that you want to appear here.

3. Panel Descriptions

Elements	Description
ROMS	Each ROM contains different samples: Select one of them by clicking on ROM buttons at the top of the UI.
Preset Browser	Select a preset using the preset browser
GLOBAL	Adjusts the main volume, the main tuning, and the velocity sensitivity.
TUNING	Adjusts the tuning of each sound of the ROM. Note: close and open Hi Hat are linked to the same tune knob. Toms and Congas are linked too, keeping the pitch ratio between High & Low.
MIXER	Adjusts the volume and panoramic of each sound of the ROM. Note: close and open Hi Hat are linked to the same volume and pan fader.
PADS	Trig the pads to listen to the sound you want to edit. The MIDI default range is mapped from C1 to D#2. Right Click on pad to make your own MIDI assign. Ref:7.2 Right Click on Custom pad to add your custom sample (8 Mb max)

Error! Use the Home tab to apply Titre 1;gg to the text that you want to appear here.

4. Basic Operations

Select your favourite ROM sounds.

Use the default MIDI assign from C1 to D#2 or use the pads to MIDI assign the sounds to MIDI notes.

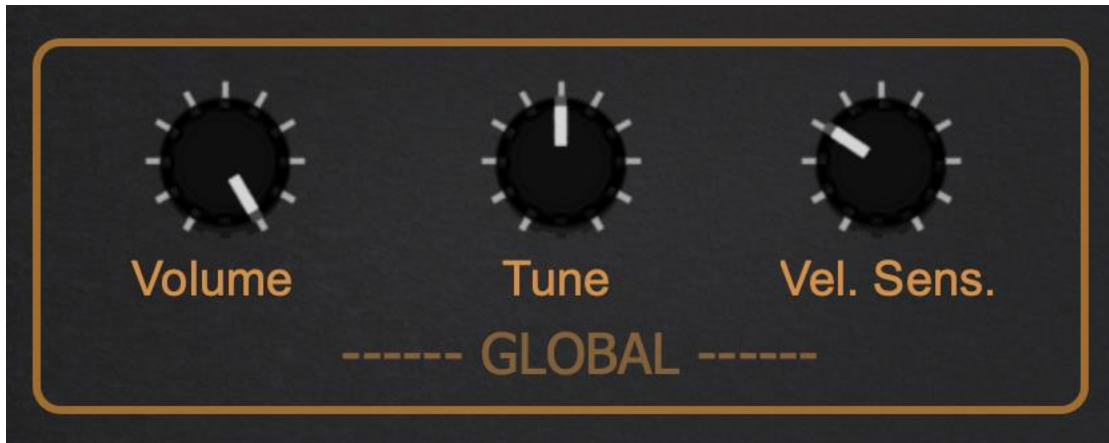

[Right click](#) or [control + click](#) on pad to assign, [Ref: 7.2](#).

Create a MIDI clip to play the notes via the sequencer of your DAW.

[Ctrl + click](#) or [double click](#) on each knob and fader will reset the knob and fader at their default value.

Error! Use the Home tab to apply Titre 1;gg to the text that you want to appear here.

5. GLOBAL

- On the GLOBAL section you can adjust the main volume of the Mininn Drum from – inf to + 3dB.
- The GLOBAL Tune allows you to change the tuning of all the sounds at the same time keeping the individual tuning ratio. To have fun you can assign the tune parameter to the pitch bend of your controller.
- Vel. Sens. Knob sets the velocity sensitivity on played MIDI notes. Set to the minimum you'll get no velocity sensitivity on notes, set to the maximum you'll get the full range of velocity sensitivity on note.

Error! Use the Home tab to apply Titre 1;gg to the text that you want to appear here.

6. ROM

Select your favorite ROM by clicking the ROM1 ROM2 ROM3 buttons.

Error! Use the Home tab to apply Titre 1;gg to the text that you want to appear here.

6.1. ROM 1

Element	Description
ROM1	The ROM 1 is a selection closer to the LM-1

Error! Use the Home tab to apply Titre 1;gg to the text that you want to appear here.

6.2. ROM2

Element	Description
ROM2	The ROM 2 is a selection closer to the 9000 version

Error! Use the Home tab to apply Titre 1;gg to the text that you want to appear here.

6.3. ROM3

Element	Description
ROM3	ROM 3 is a custom adaptation of the 80s drum sounds.

Error! Use the Home tab to apply Titre 1;gg to the text that you want to appear here.

7. PADS

Click on the pads to trig the sounds associated to each pad.

By clicking the pad on UI you'll trig the sample to hear it, you can use the MIDI notes from C1 to D#2 to trig the samples.

B0= BassDrum;
C1 = BassDrum;
C#1 = Snare;
D1 = ClosedHihat;
D#1 = OpenHihat;
E1 = Rimshot;
F1 = Clap;
F#1 = Cabasa;
G1 = Tambourine;
G#1 = Crash;
A1= Ride;
A#1 = CongaHigh;
B1 = CongaLow;
C2 = TomHigh;
C#2 = TomLow;
D2 = Cowbell;
D#2 = Custom;

Error! Use the Home tab to apply Titre 1;gg to the text that you want to appear here.

You can also use the General MIDI mapping. [Ref. 11.3.1](#)

B1 = Bass;
C2 = Bass;
C#2 = Rimshot;
D2 = Snare;
D#2 = Clap;
E2 = Snare;
F2 = TomLow;
F#2 = ClosedHihat;
G2 = TomHigh;
G#2 = ClosedHihat;
A2 = TomLow;
A#2 = OpenHihat;
B2 = TomLow;
C3 = TomHigh;
C#3 = Crash;
D3 = TomHigh;
D#3 = Ride;
E3 = Ride;
F3 = Ride;
F#3 = Tambourine;
G3 = Crash;
G#3 = Cowbell;
A3 = Crash;

A#3 = Custom;

C4 = CongaHigh;
C#4 = CongaLow;
D#4 = CongaHigh;
E4 = CongaLow;

A4 = Cabasa;
A#4 = Cabasa;

You can also assign your own MIDI notes, see the next chapter.

Error! Use the Home tab to apply Titre 1;gg to the text that you want to appear here.

7.1. MIDI Assign

Right click or **control + click** on pad to open the assign menu then click on **assign midi note**.

Be careful multiple notes can be assigned to a pad.

You can also clear the MIDI note assigned: **Right click** or **control + click** on pad and then click on **clear midi assign**.

When **WAIT FOR MIDI NOTE** appears just push the selected note on your controller and the pad will be automatically assigned to it.

Error! Use the Home tab to apply Titre 1;gg to the text that you want to appear here.

7.2. Custom Sample

You can also simply [Drag and Drop](#) samples on pad.
Wav and Aiff Samples at any Sample Rate and Bit Depth are allowed.

or

[Right Click](#) on Custom pad to add your custom sample.

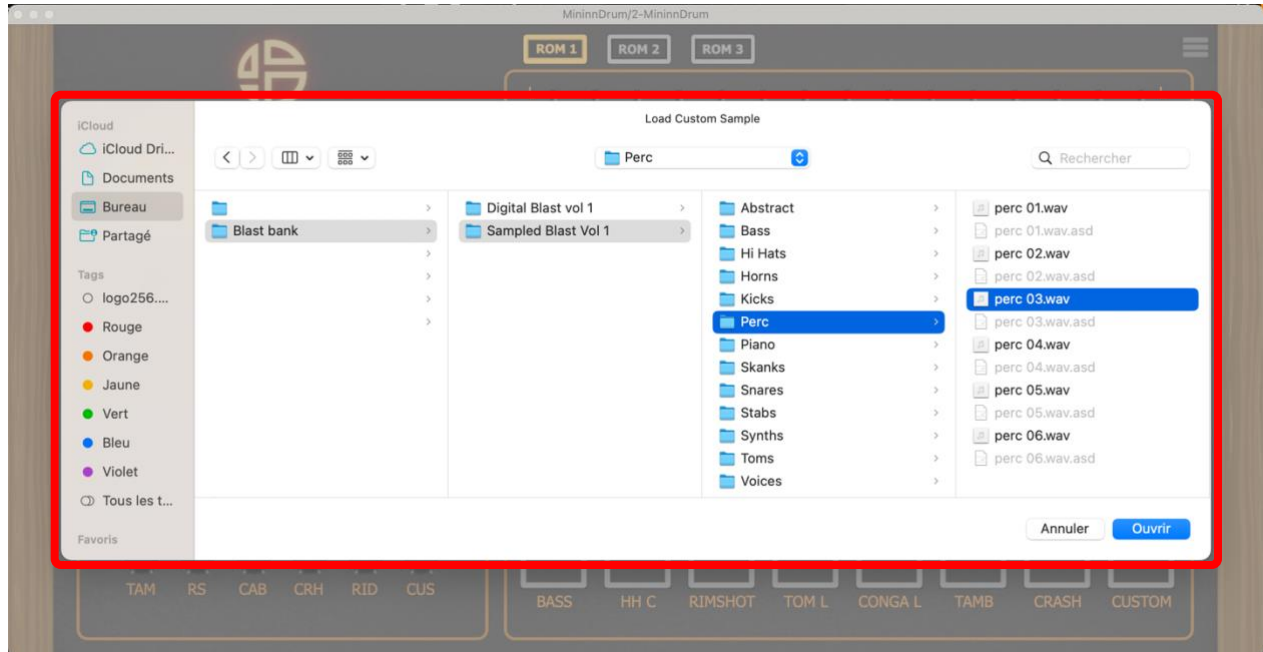

A contextual menu appears, then [click on Load Sample](#).

Error! Use the Home tab to apply Titre 1;gg to the text that you want to appear here.

The browser window appears, select your sample then [click](#) on [open](#) button.

Error! Use the Home tab to apply Titre 1;gg to the text that you want to appear here.

8. MIXER

On this section adjusts the volume and the panoramic of each part.

Note: close and open Hi Hat are linked to the same volume and pan fader.

- BD = Bass Drum
- Snr = Snare
- HH = Hi Hats
- Clp = Clap
- T L = Tom Low
- T H = Tom High
- C L = Conga Low
- C H = Conga High
- CB = Cowbell
- Tmb = Tambourine
- RS = Rimshot
- Cab = Cabasa
- Crh = Crash
- Rid = Ride
- Cus = Custom

Error! Use the Home tab to apply Titre 1;gg to the text that you want to appear here.

9. TUNING

Adjusts the tuning of each sound of the ROM.

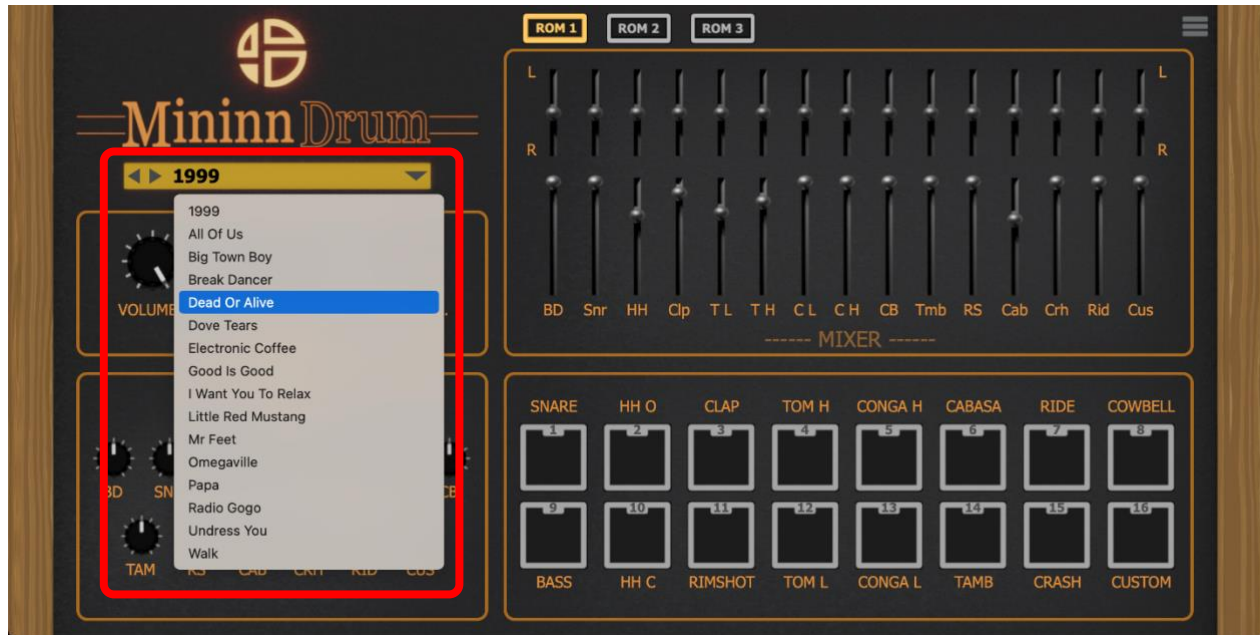

Note: close and open Hi Hat are linked to the same tune knob.

Toms and Congas are linked too, keeping the pitch ratio between High & Low.

- BD = Bass Drum
- SNR = Snare
- HH = Hi Hats
- CLP = Clap
- TOM = Tom Low and Tom High
- CNG = Conga Low and Conga High
- CB = Cowbell
- TAM = Tambourine
- RS = Rimshot
- CAB = Cabasa
- CRH = Crash
- RID = Ride
- CUS = Custom

Error! Use the Home tab to apply Titre 1;gg to the text that you want to appear here.

10. Presets

By [clicking](#) on the preset browser of the Mininn Drum, a menu appears with the factory presets.

You can add you own presets in this browser.

Paste your presets here:

Mac :

/Library/Audio/Presets/Audioblast/MininnDrum

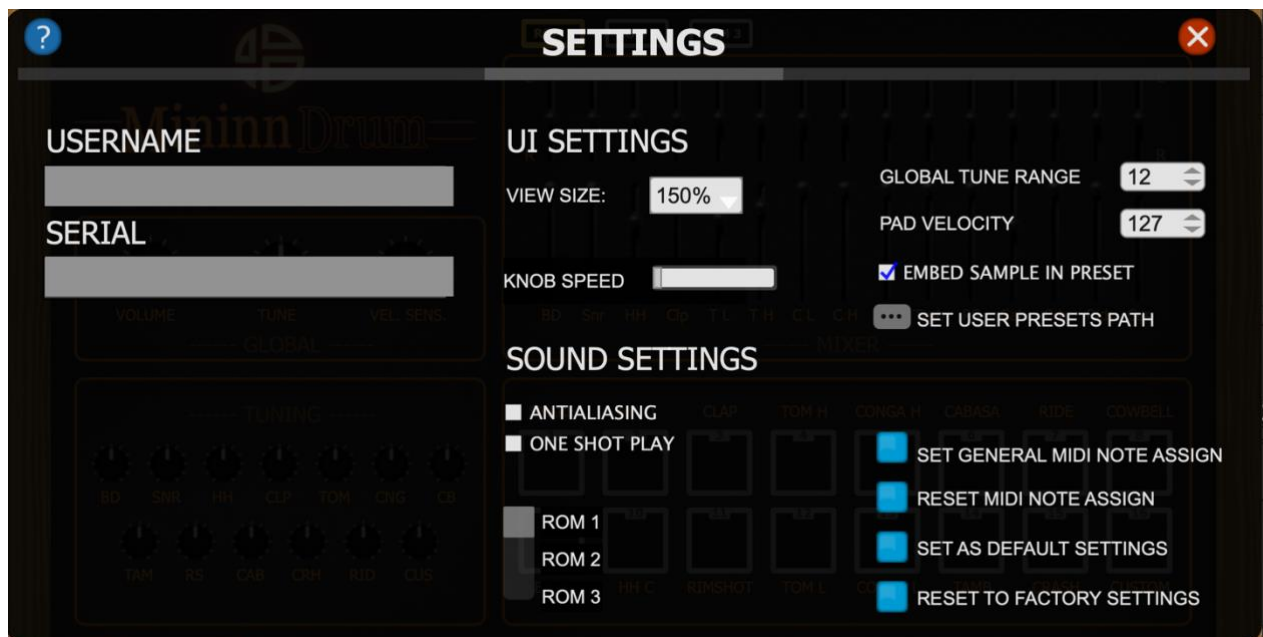

Windows:

C:\Users\%USERNAME%\Documents\VST3 Presets\Audioblast\MininnDrum

Error! Use the Home tab to apply Titre 1;gg to the text that you want to appear here.

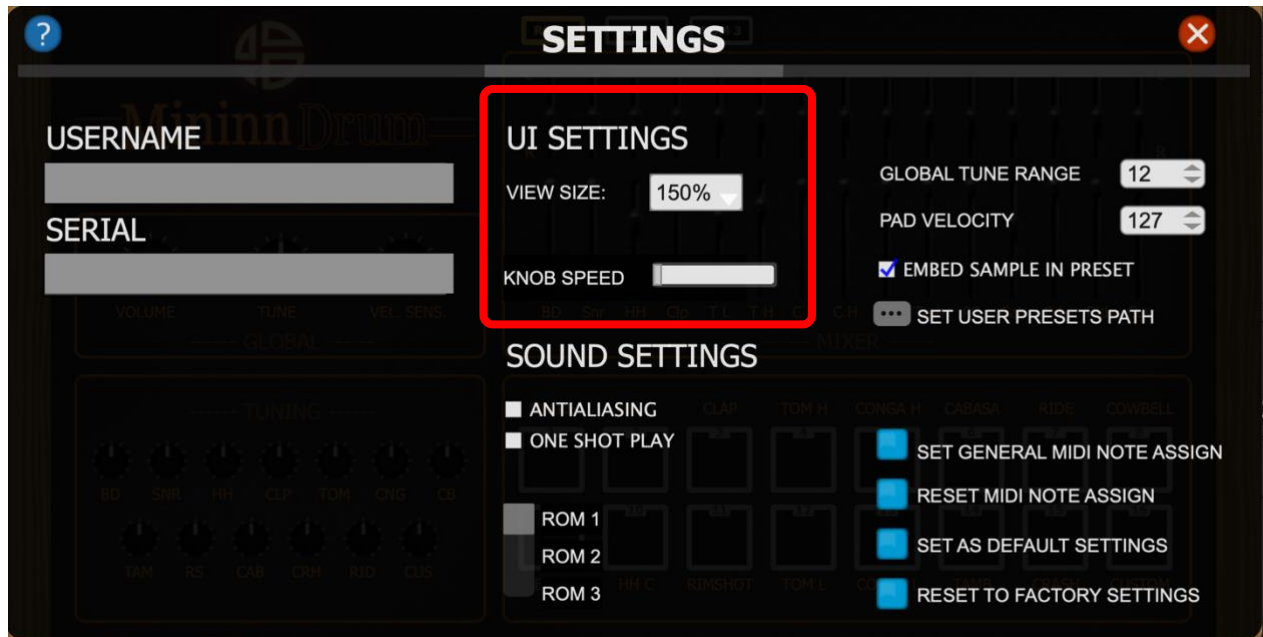

11. Settings

Click on the settings icon to get access to settings view.

Error! Use the Home tab to apply Titre 1;gg to the text that you want to appear here.

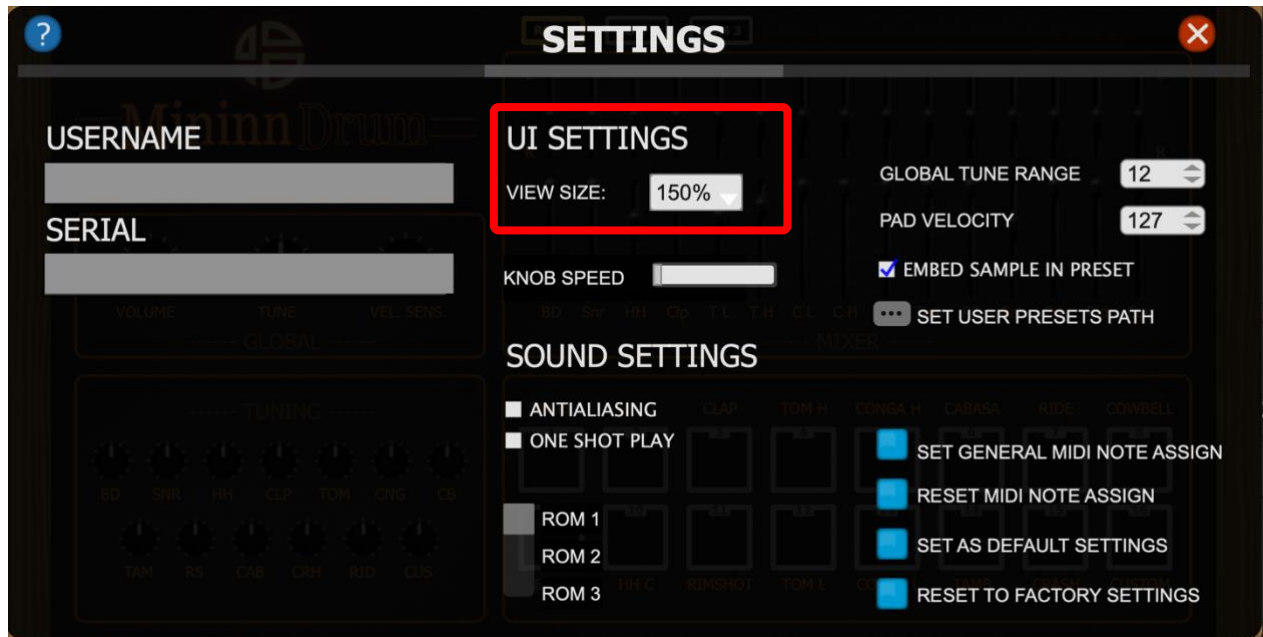

11.1. UI Settings

Change your UI setting in this section.

Error! Use the Home tab to apply Titre 1;gg to the text that you want to appear here.

11.1.1. View Size

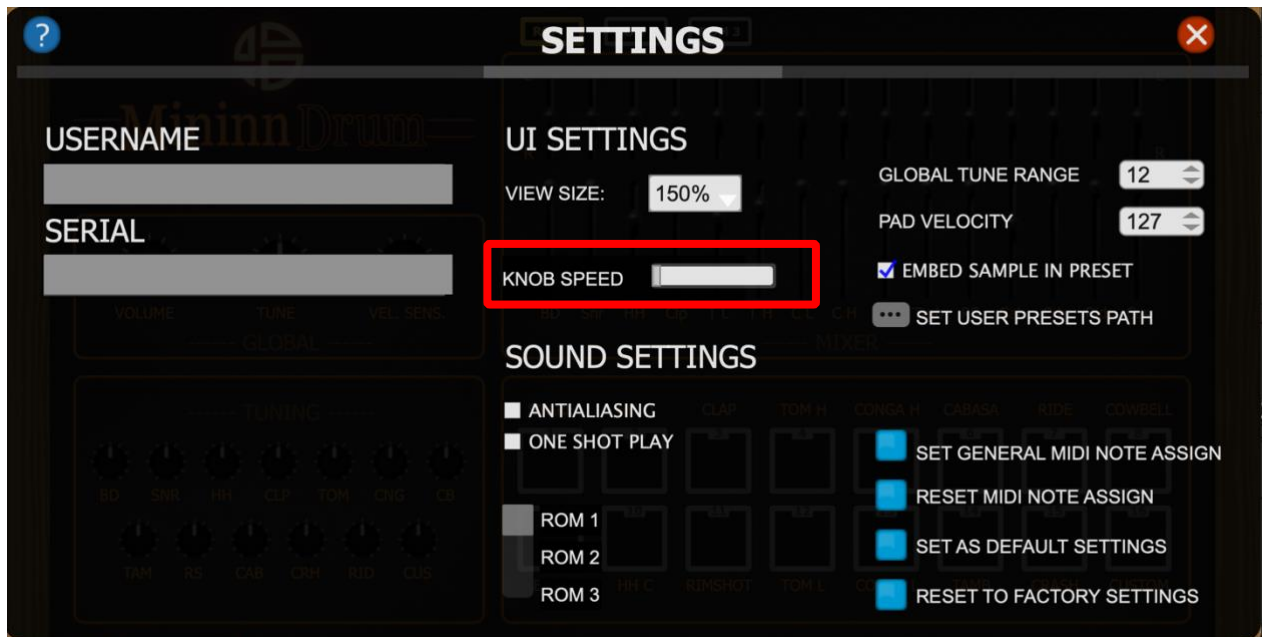

Click on the drop-down list to select one of the 4 sizes: 100%,150%,200%,75 %.

You can also use the mouse directly on the window to set the size (VST3 only).

Error! Use the Home tab to apply Titre 1;gg to the text that you want to appear here.

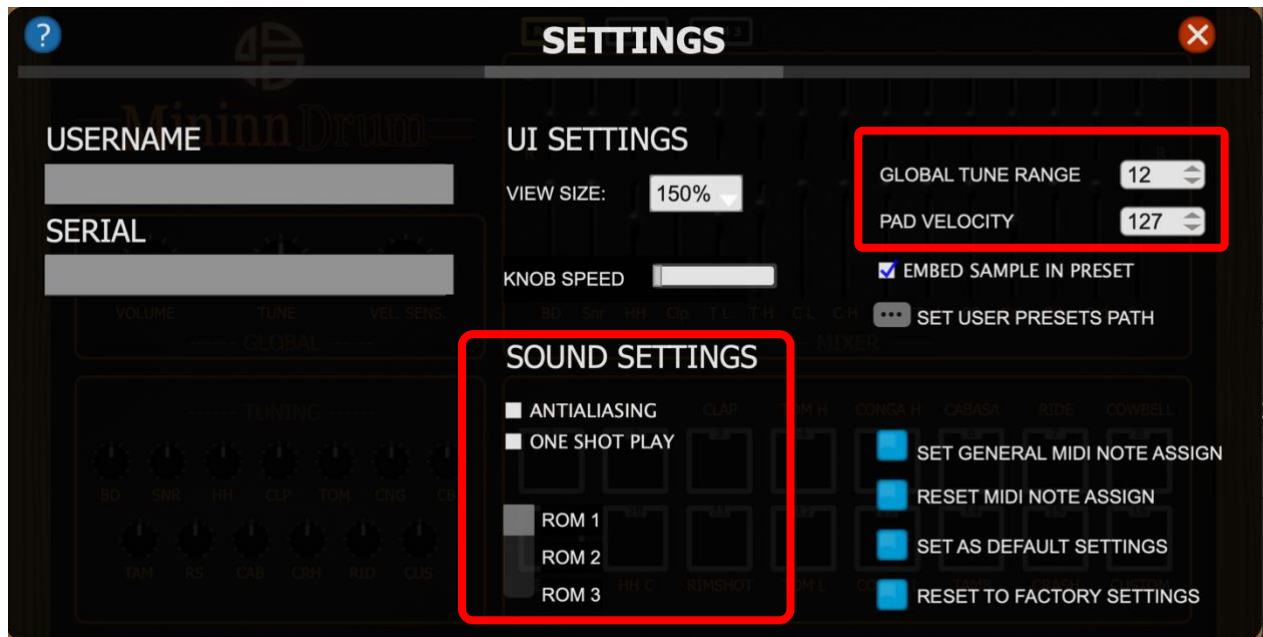

11.1.2. Knob Speed

This horizontal fader allows you to select the knob speed, left you will get a slower knob with more accuracy, right you will get a fast knob.

Error! Use the Home tab to apply Titre 1;gg to the text that you want to appear here.

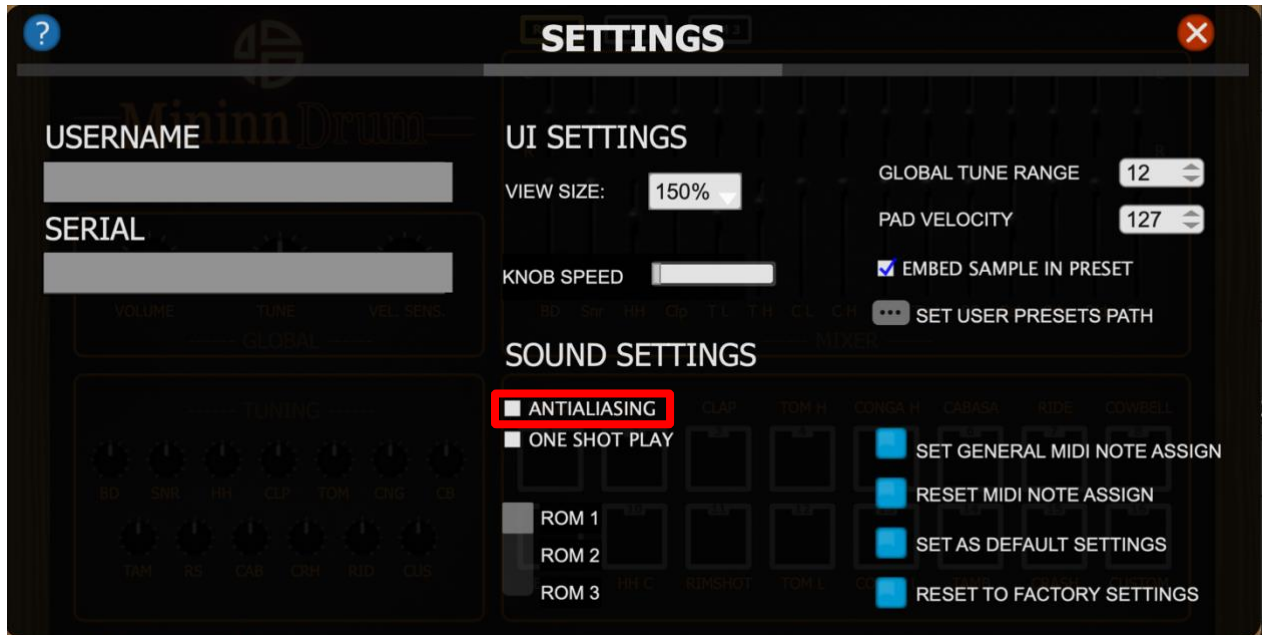

11.2. Sound Settings

Change your sound setting in this section.

Error! Use the Home tab to apply Titre 1;gg to the text that you want to appear here.

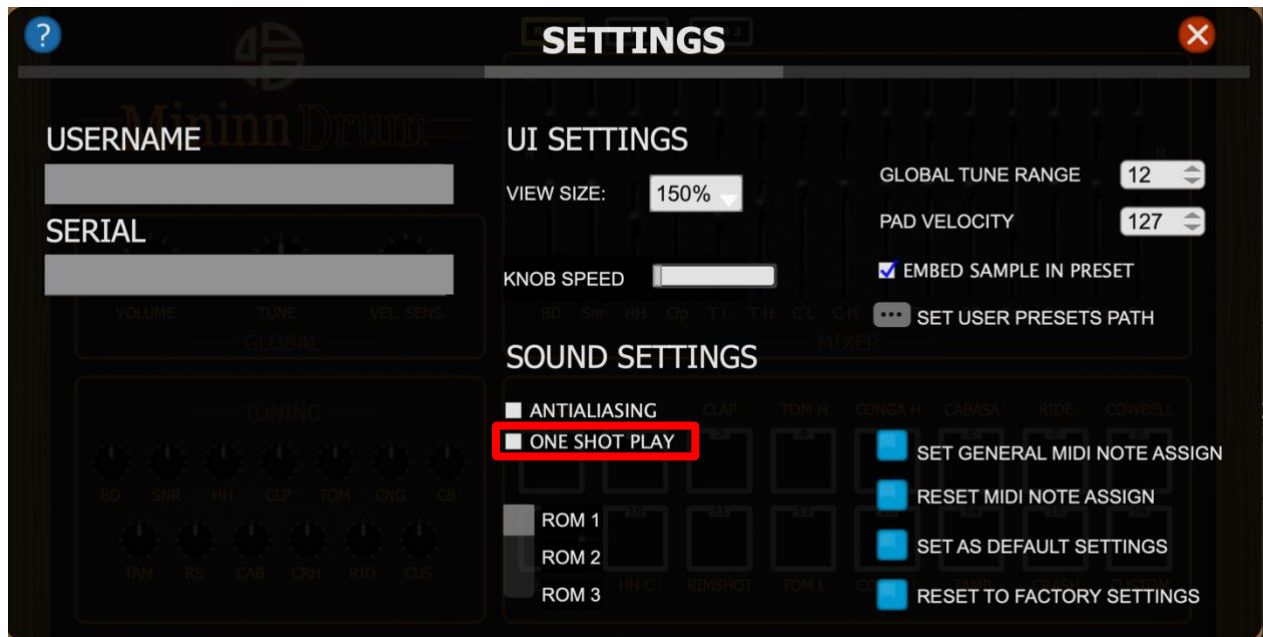

11.2.1. Antialiasing

Check this box to activate the antialiasing, it filters the sounds on pitched sample.

Error! Use the Home tab to apply Titre 1;gg to the text that you want to appear here.

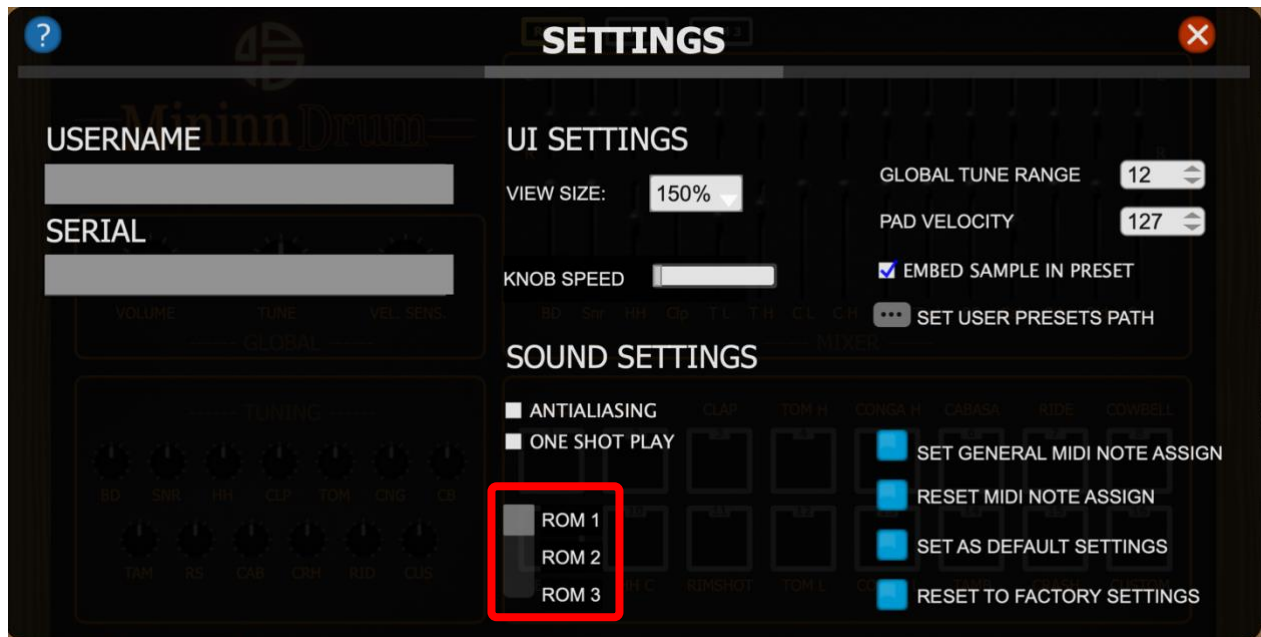

11.2.2. One Shot

By Checking this box, the sample will be played entirely once triggered, Unchecked depends of the MIDI note length.

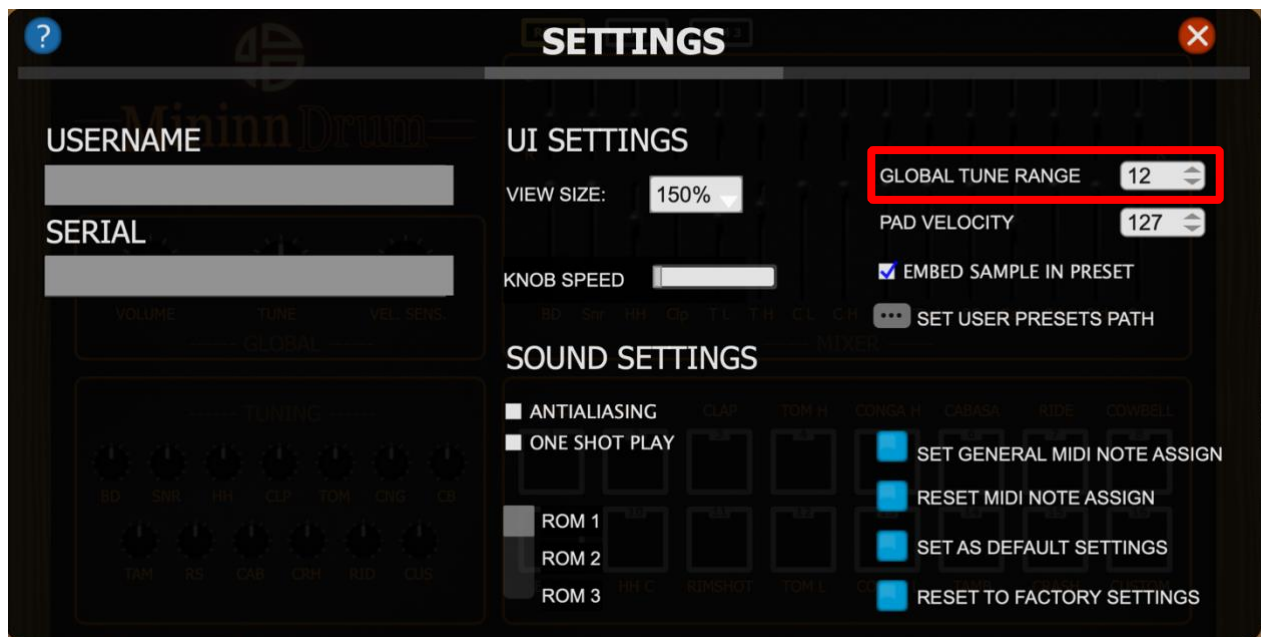

Error! Use the Home tab to apply Titre 1;gg to the text that you want to appear here.

11.2.3. ROM Selector

You can also select your favorite ROM by using the ROM selector in the settings menu.

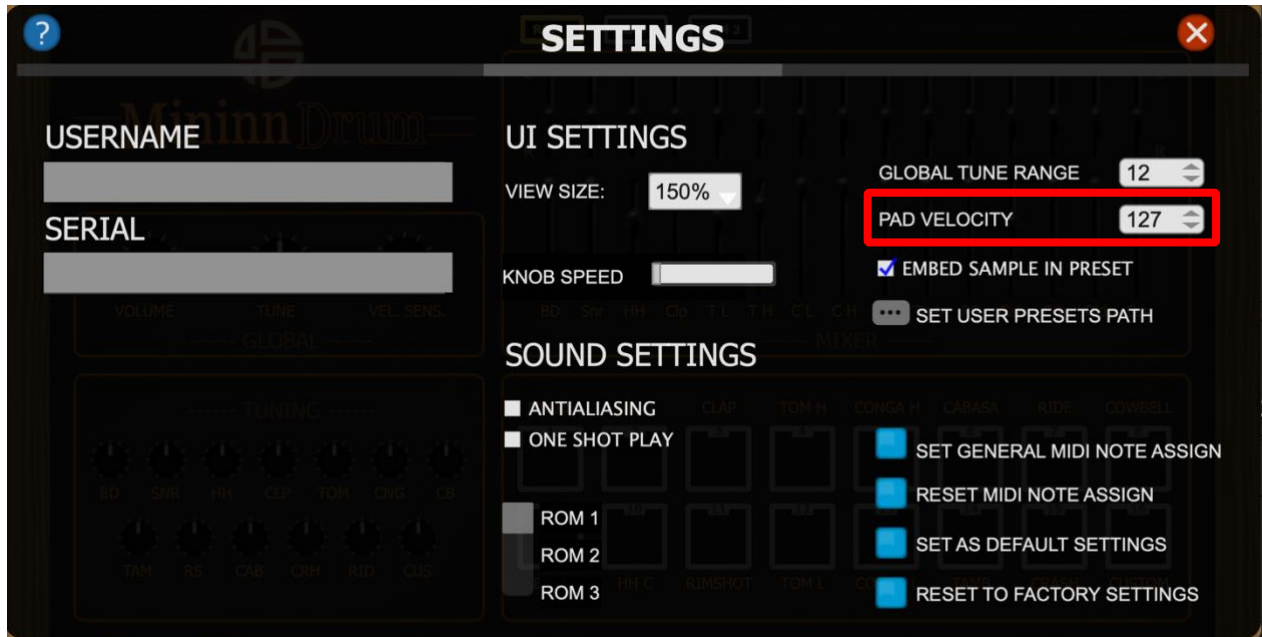

11.2.4. Global Tune Range

Set the Global Tune range from 1 to 12 semitones.

Error! Use the Home tab to apply Titre 1;gg to the text that you want to appear here.

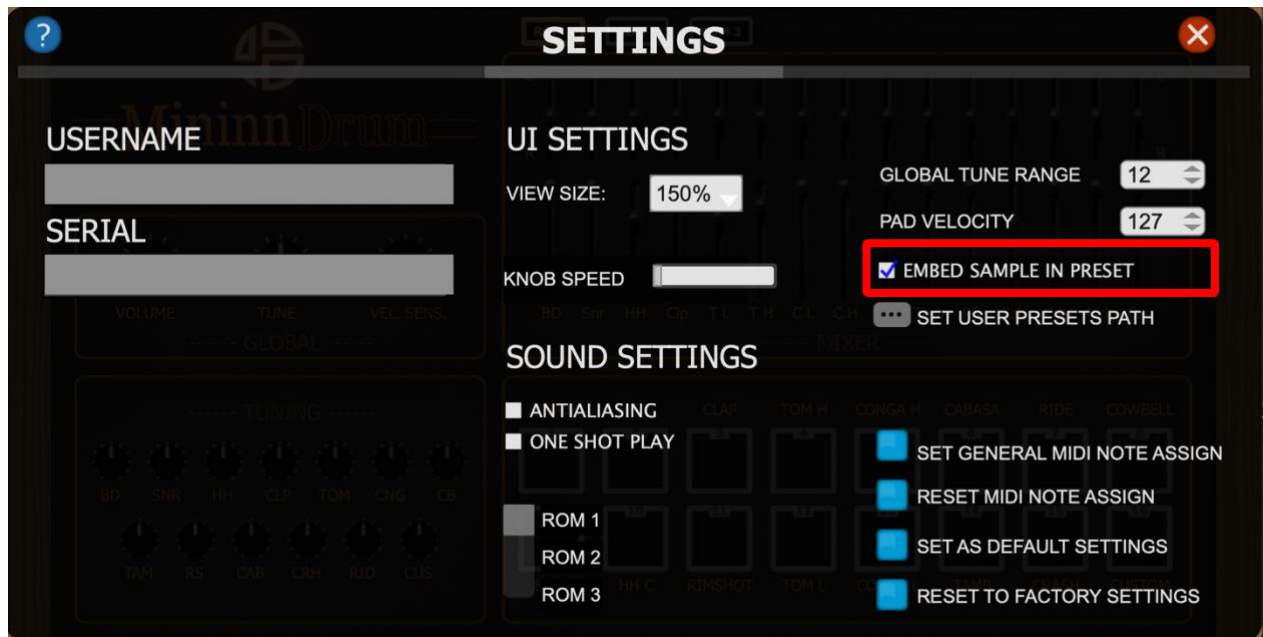

11.2.5. PAD Velocity

Set the pad velocity on UI from 0 to 127.

Error! Use the Home tab to apply Titre 1;gg to the text that you want to appear here.

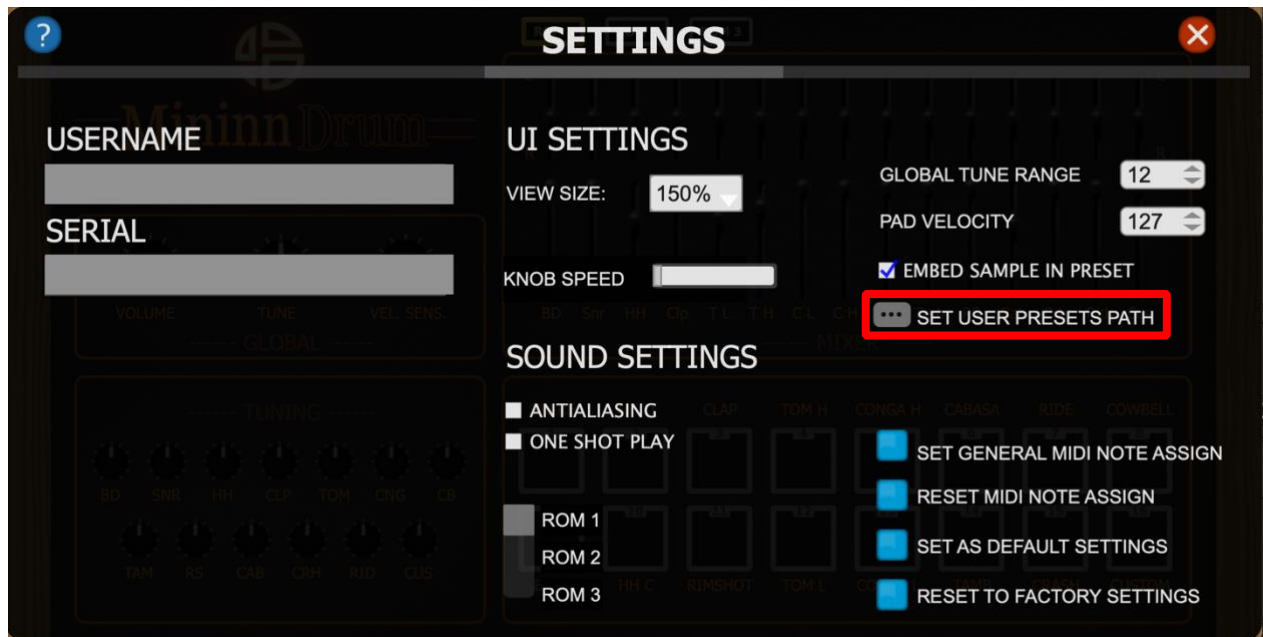

11.2.6. EMBED Sample in Preset

Check this box to save the embed sample in the preset.

Error! Use the Home tab to apply Titre 1;gg to the text that you want to appear here.

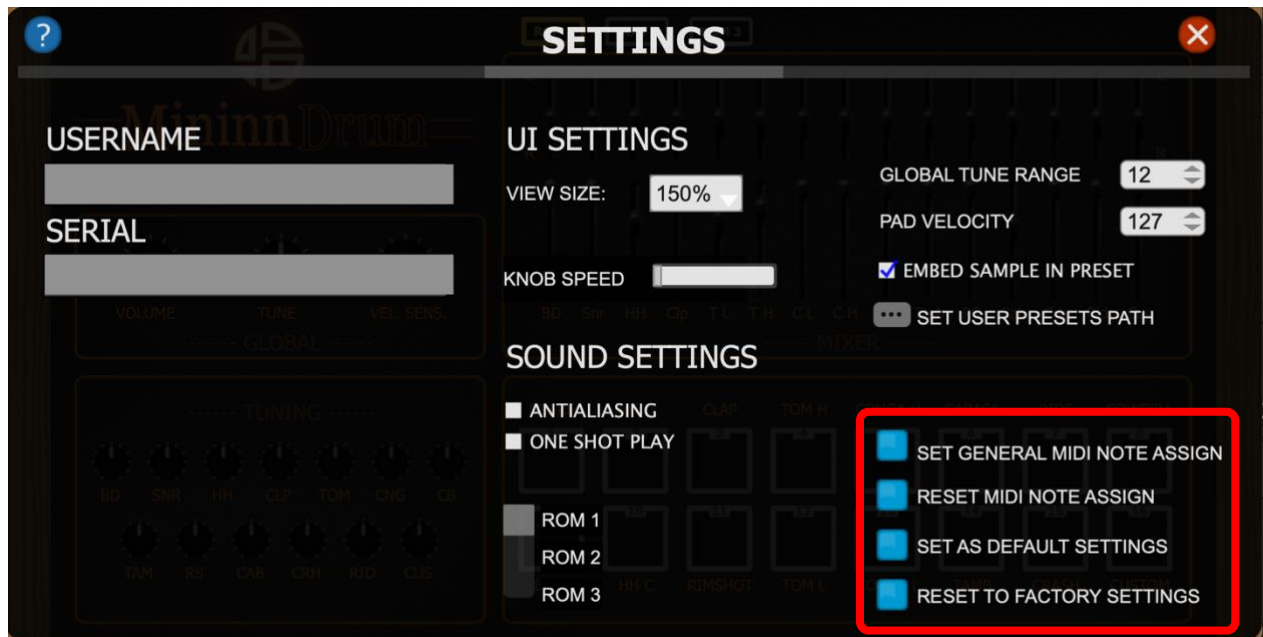

11.2.7. Set presets Path

Click on the ... button to set your own preset path.

Error! Use the Home tab to apply Titre 1;gg to the text that you want to appear here.

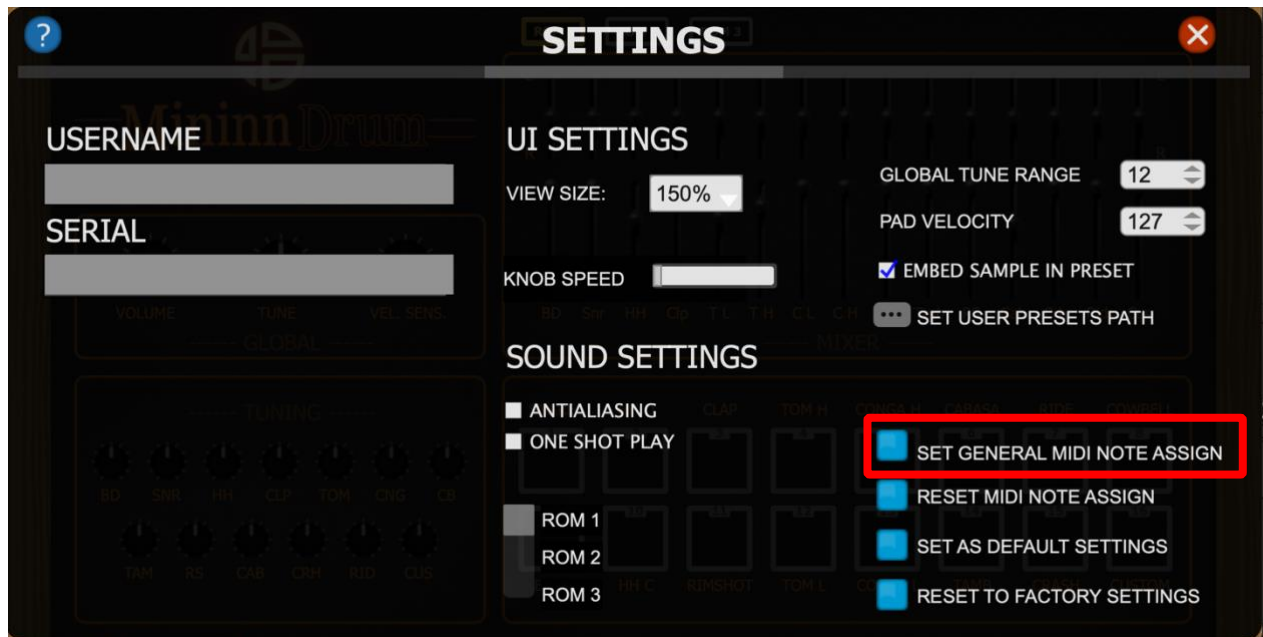

11.3. Global Settings

Modify the global settings of the Mininn Drum.

Error! Use the Home tab to apply Titre 1;gg to the text that you want to appear here.

11.3.1. Set General Midi Note Assign

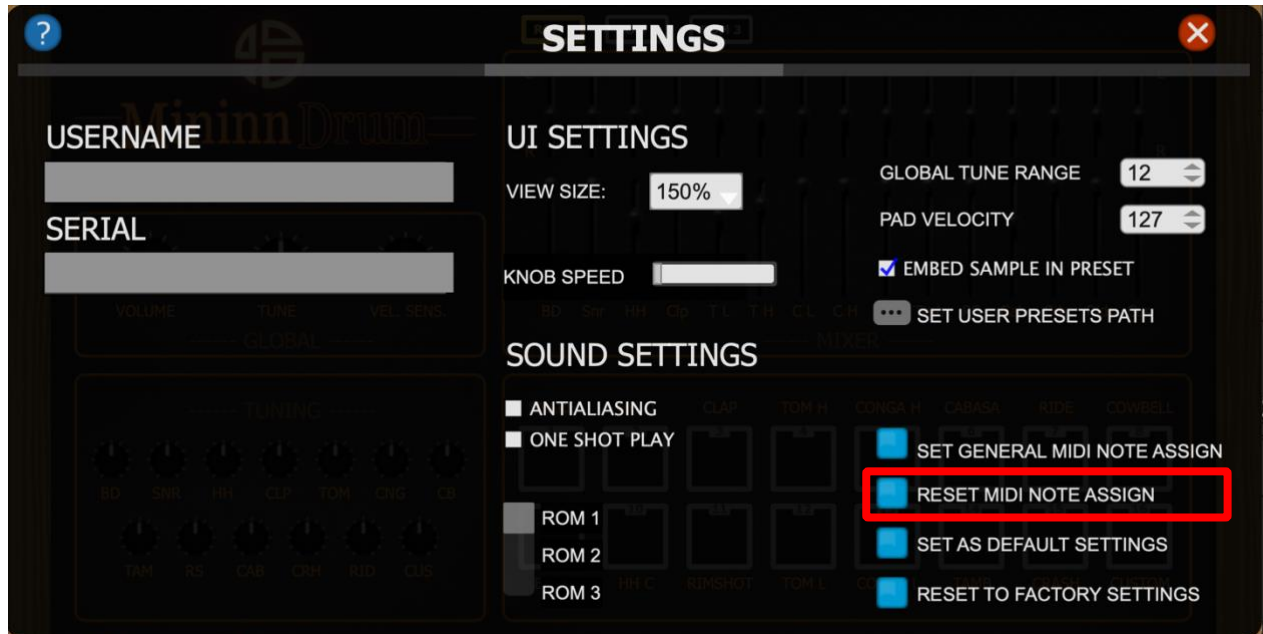

Click this button to set the whole MIDI note assignment of the Mininn Drum as General MIDI assign as default.

Be careful, your own MIDI assign will be lost.

Error! Use the Home tab to apply Titre 1;gg to the text that you want to appear here.

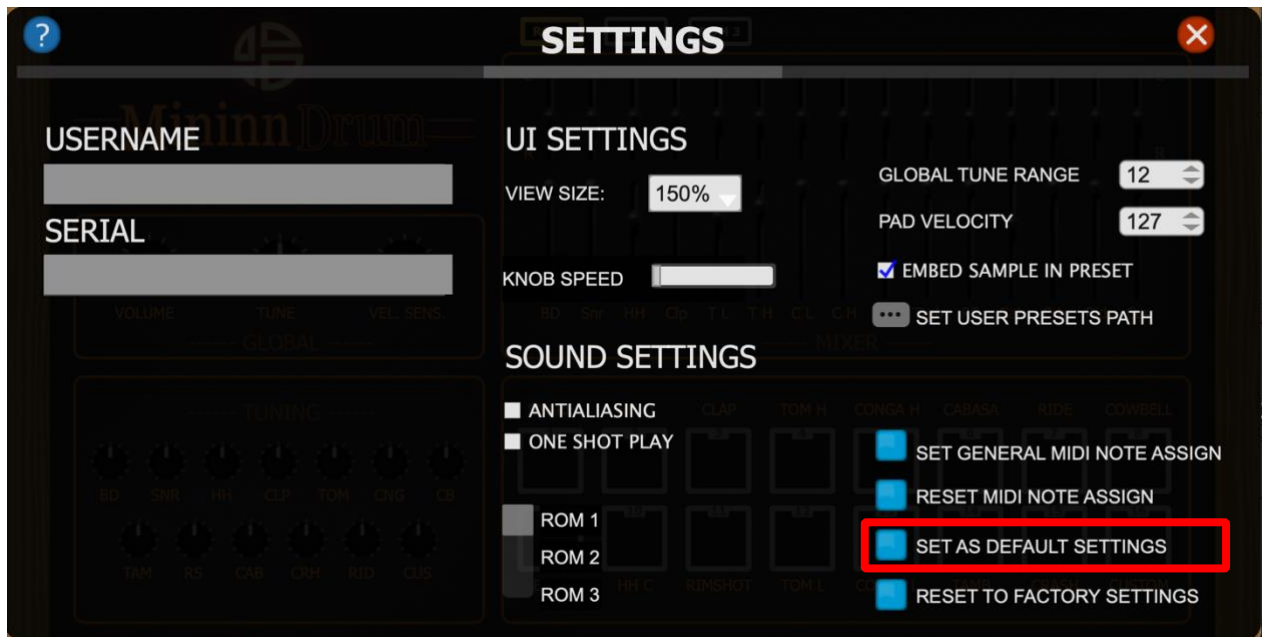

11.3.2. Reset MIDI Assign

Click this button to reset the whole MIDI note assignment of the Mininn Drum.
Be careful, your own MIDI assign will be lost.

Error! Use the Home tab to apply Titre 1;gg to the text that you want to appear here.

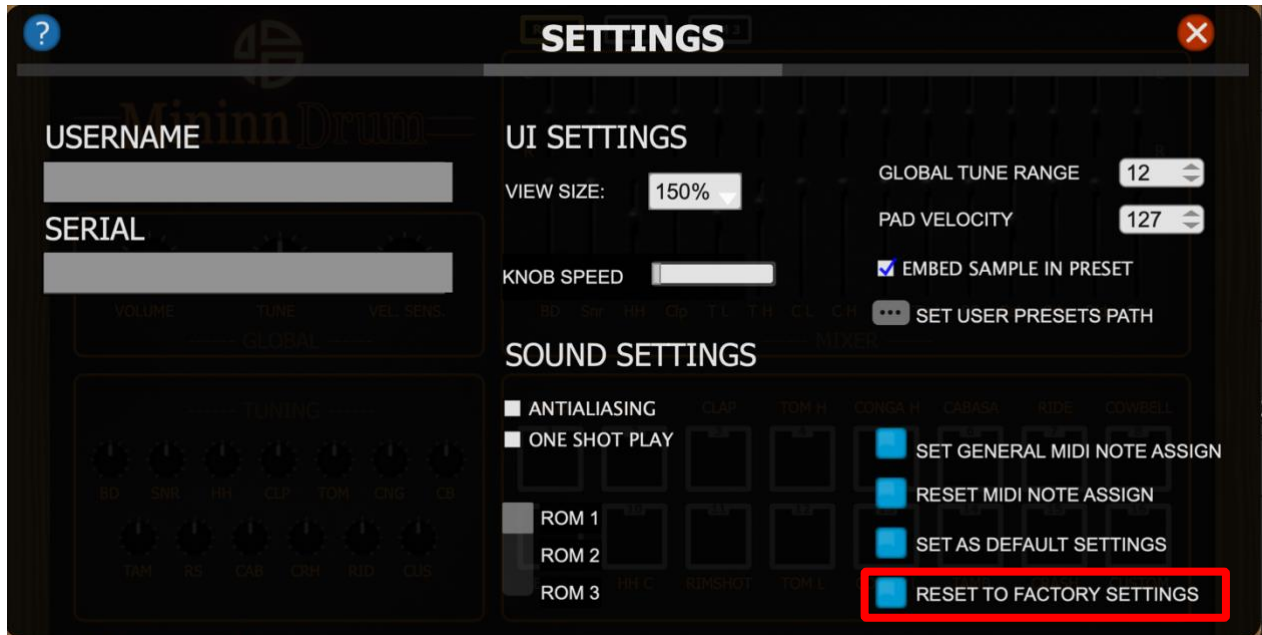

11.3.3. Set as Default

[Click](#) this button to set your settings as default.
Each time you will launch the plugin these settings will be loaded.

Error! Use the Home tab to apply Titre 1;gg to the text that you want to appear here.

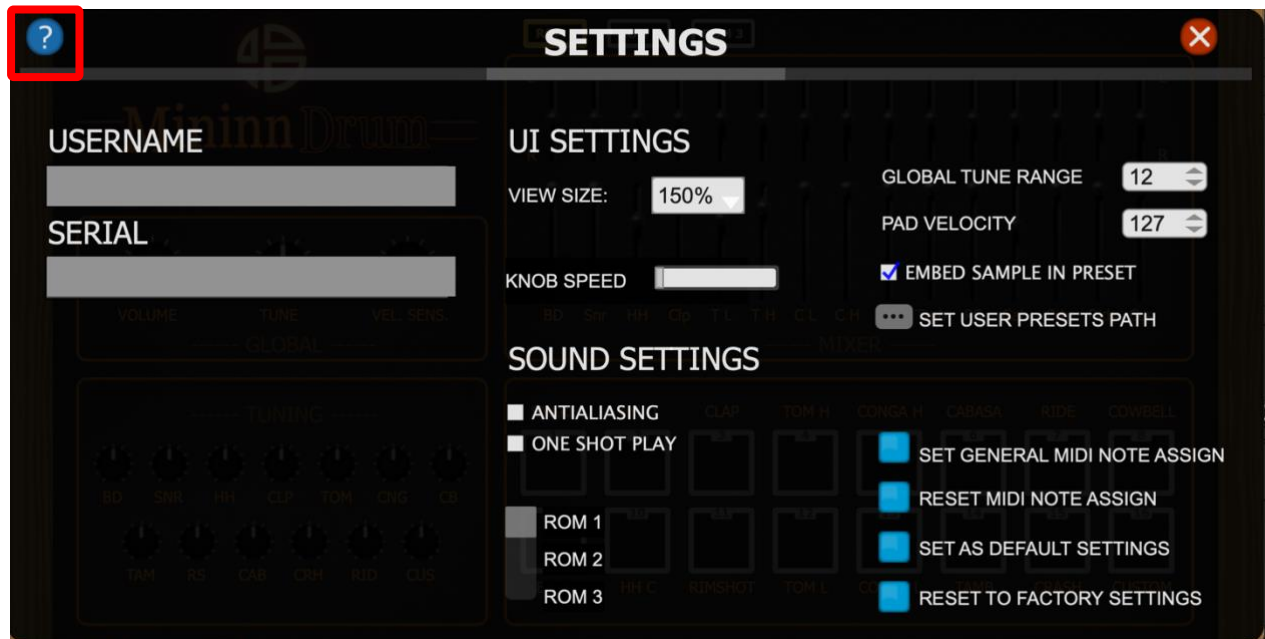

11.3.4. Reset to Factory

Click this button to reset settings to factory.

Error! Use the Home tab to apply Titre 1;gg to the text that you want to appear here.

11.3.5 Help

Click on the question mark icon to get fast access to the user manual.
